CONGRATULATIONS TO...

eighth grade student, Sara Mastapasco, for being selected as one of Hunterdon County's Distinguished Students. Sara invited Mrs. Jan Kovacs, as "honored teacher" to accompany her to a special dinner ceremony at Hunterdon Central;

Game Night

Student Council will be hosting a Game Night on Friday, April 29 from 7-9:30 pm for Holland Township School 5th-8th grade students. More information to follow after Spring Recess.

ROBOTICS CHALLENGE 2011

Pictured left to right:
Chris McCormick,
Marion Macaoay and
Katie McCormick

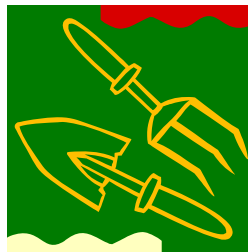

The Holland Township 6-8 Grade Robotics Team participated in the Middle School Design Challenge on April 2. The team won a drawing for the middle school NXT robotics kit (Value \$300).

Chosen by Morehouse Engineering firm and the judges for team work, creativity, and most promising team. They received the high school, Tetrax Robotics Kit (Value \$800.). Terrific job Mrs. McWilliams and students!

family gardening day

family gardening day

On Saturday, April 30, 2011, please join Dr. Yard and Mrs. Martin for Family Gardening Day! Our Discovery Garden is in need of some spring cleaning and we need some extra hands to help us. We hope to tear up the plants and bushes that did not survive the winter, clean the stepping stones & bird baths, clean and re-fill our bird feeders and prepare the soil for all the plants, flowers and bushes that our students have been growing for the last few weeks. We will be working in the Discovery Garden from 9 a.m. until noon. Please join us for some light refreshments and family fun! If you have any questions or require additional information, please contact Mrs. Martin at rmart@hollandschool.org.

NETS FOR NETS

Seventh grade students participated in a very worthy service-learning fundraiser to help stop the spread of malaria in the African country of Uganda. Through sponsorships and donations, they raised approximately \$2,500. Great job!

6TH GRADE G&T PLACES 1ST

Holland Township's 6th grade students took first place at the recent Thomas Edison Invention Convention Challenge held at New Jersey Institute of Technology. Holland's team eight, along with teacher Chris McWilliams, worked together to design and build a prototype of an invention that was powered by an alternate form of energy. This winning invention was designed to help solve the problem of the cows' water trough freezing in the cold winter months and the farmer unaware of low water levels.
